

# The Terror of Grip is the After Effects

Grip leaves its victims weak with localized troubles. Many of them drag along for months after an attack with aching backs, coughs and colds and impaired digestion.

Grip is a catarrhal disease and it leaves the system full of that dread malady. Drive out the catarrh and you overcome the grip.

There is one treatment that seldom fails to bring relief, one remedy that time has tested and thousands have proved.

## Rebuild Your Lost Strength with PERUNA—a good tonic

Because PERUNA is a good tonic and because it has special reference to catarrhal conditions its use in the weakness following Grip has proven very beneficial. It clears up the system of all the poisonous matter left after the attack, gives tone and strength to the digestive organs and overcomes the congestion and inflammation. What it has done for thousands is well told in the letter below.

### LOOK AT THIS LETTER

Mrs. Frank Stroebe, E. F. D. 1, Appleton, Wis., says:

"I began using Peruna a few months ago when my health and strength were all gone, and I was nothing but a nervous wreck. Could not sleep, eat or rest properly, and felt no desire to live.

"Three bottles of Peruna made me look at life in a different light, as I began to regain my lost strength. While my recovery took nearly four months, at the end of that time I was better than I ever was before. I had a splendid color and never weighed more in my life.

"I certainly think Peruna is without a rival as a tonic and strength builder, and it has my endorsement."

**PERUNA IN TABLET FORM**

PERUNA is now put up in tablets, not unpleasant to take. They are very effective and convenient treatment for catarrh in whatever form it manifests itself. They are invaluable in colds, affording quick relief, and are a preventive if taken in time. Carry a box with you.

The Peruna Company, Columbus, Ohio

## LETTERS TO THE EDITOR

### THE PROHIBITION QUESTION.

Correspondent Thinks Local Option Only a Vacuum.

Editor, Barre Times: I have read with interest the recent discussion in the columns of The Times in relation to the referendum authorized by the Perry act. If I mistake not, you freely publish both sides of the argument, if fairly and honestly presented.

It is certainly a momentous question to be decided and all statements, including these few I may present, should be carefully weighed and the decision reached should be founded, not upon policy and personal preference entirely, but which may also include the former—upon truth and right—the prosperity and happiness of the present and future generations.

My argument is aimed directly at the Vermont Local Option league and its adherents and to arouse sound judgment and clear, unregrettable action. All arguments seem to at least infer that rum traffic is an evil. One point settled! Next, how to regulate it? Here we split.

The two great slogans seem to be, "Prohibition does not prohibit" and "Local option is a temperance measure." The laws prohibiting murder, theft and other crimes, with heavy penalties attached, do not absolutely prohibit, yet no one argues the license of such crimes.

The only possible difference is the relative number involved, and attitude of public sentiment which, if wrong, should be disciplined, not fostered. For my part, careful observation and court records do not prove that the restrictions of the present law are enforced a particle better than the old prohibitory law, campaign statements to the contrary notwithstanding.

I suppose there are differences between a legal and an illegal saloon. Both are so bad there is, in my opinion, little choice and some points in favor of the latter.

Now an open question: If license-local option is a temperance measure, why are brewers, distillers, dealers and habitual drinkers positively, universally and clamorously in favor of the measure?

How can any well-poised mind think for a moment that they are in favor of anything looking toward temperance? Nice crowd isn't it? Do you enjoy your company? This may flavor of sarcasm, but it is introduced for an argument and is indisputable.

I do not think Bishop Hall very representative of the church of the entire state. President Wilson and ex-President Taft probably have not yet felt the little rug. His Excellency the governor promptly and emphatically broke the cord that would draw him into the maelstrom.

The reduced number of towns voting license the past few years is cited with some show of pride. Agreed again! And if so commendable why not make a clean sheet? "Well enough" (1). There is no "well enough" until the vile stuff is haggard or plugged out of every human and inhuman person in the state. Until both law and sentiment make indulgence in an temptation to intemperance, illegal, undesirable and impossible.

A very high and distant goal, perhaps, but which course just now presented, think you, leads toward it? Let me repeat: It is a very momentous question. Let no one neglect or mistake. If you are not enlisted, drafted and mustered in King Demitry's army, get and lead others just as far away as possible.

The term, "local option," is itself a misnomer, a deceiver, almost a vacuum. All the attributes of a license town extend beyond its geographical limits almost indefinitely. Maine has her problems to solve and, undoubtedly, is large enough to do it. Let us solve ours on our own pavement.

The great progress of the state in the last 12 years is cited. A grand record in spite of local option, not because of it. The "backward step" was taken then. Let us "about face" and "forward" with the rapidly increasing list of prohibition states.

My view of local option and its downfall offers absolutely no menace to the town unit idea.

Perhaps the Perry act does not provide means of procuring alcohol and other liquors for medicinal purposes. But then, if so easy to procure, under prohibition, for illegitimate purposes, why not for the legitimate?

And furthermore, only a few months until an amendment could be incorporated if desirable. And probably more than enough on hand to last that time!

Vote "Yes."

Fred V. Tuller.

Presbyterian Church Notes—The crowded hall at the entertainment given by the ladies' aid society on Thursday evening spoke plainer than words of the attitude our people have toward the noble efforts put forth by this society to improve the church building. And the entertainment was all that a people could desire, the program lasting almost two hours, and everyone was sorry that it was not longer. The ladies will be sure of a full house if they give such an entertainment every week.—Despite the cold weather and stormy Sundays, the attendance at church has been good, especially on Sunday evenings, when good delegations of the young people have been present.—On Sunday morning the pastor will speak on "The Message of the Hour" and in the evening on "Women of the Bible Who Exerted an Evil Influence in Their Day."—Prayer meetings are being held at the manse every Wednesday evening.

## BREAK A CHILD'S COLD BY GIVING SYRUP OF FIGS

Cleanses the Little Liver and Bowels and They Get Well Quick

—When your child suffers from a cold don't wait; give the little stomach, liver and bowels a gentle, thorough cleansing at once. When cross, peevish, listless, pale, doesn't sleep, eat or act naturally; if breath is bad, stomach sour, give a teaspoonful of "California Syrup of Figs," and in a few hours all the clogged-up, constipated waste, sour bile and undigested food will gently move out of the bowels, and you have a well, playful child again.

If your child coughs, snuffles and has caught cold or is feverish or has a sore throat give a good dose of "California Syrup of Figs" to evacuate the bowels no difference what other treatment is given.

Sick children needn't be coaxed to take this harmless "fruit laxative." Millions of mothers keep it handy because they know its action on the stomach, liver and bowels is prompt and sure. They also know a little given to-day saves a sick child to-morrow.

Ask your druggist for a 30-cent bottle of "California Syrup of Figs," which contains directions for babies, children of all ages and for grown-ups plainly on the bottle. Beware of counterfeits sold here. Get the genuine, made by "California Fig Syrup Company."—Adv.
